4 Step Problem Solving Method

<u>See</u>	<u>Plan</u>
• What is the problem asking? • What information am I given? • What do I need to figure out?	• Draw a picture or diagram • Find a pattern • Make a table • Write an equation • Work backward • Use reasoning • Guess and Check
<u>Solve</u>	<u>Look Back</u>
• Solve the problem and show your work	• Re-read the problem • Did I answer the question that was being asked? • Does my answer make sense?
