

The Amazing Beach Title 4/20/18

introduction  
more than one reason

One reason I love the beach is because it helps me to relax when I am stressed out. The sound of the waves rolling and crashing is a very soothing sound. When I listen to it all of my thoughts and worries fade away. Putting my fingers and toes into the sand helps to relax my muscles which helps to relax me.

details!

Another reason I love the beach is that it is the perfect place to have a fun day with your friends. There are so many fun activities you can do! You can swim in the water and play fun games like Marco Polo. Or stay on the sand and play volleyball. You can also have a picnic and laugh with your friends.
